**Introducing Tomorrow's Technologies... Today!**

**SPI Technologies** is Canada's premier manufacturers' representative. We're also the most sophisticated, constantly raising the bar for professionalism and innovation.

That's because we're good at what we do. Competent. Aggressive. Motivated. A customer-driven company for an expanding Canadian and global market, we're focused on growth: both yours and ours. Our superb team is highly experienced – experience gained in sales and management with industry leaders. Our inside knowledge means we understand your needs.

The high tech industry is dynamic – and difficult. Customers are demanding higher performance, functionality and reliability – all at lower cost. Rapid adoption of newer technologies is shrinking design cycles. Cost of sale and time to market are increasingly critical.

You can rely on SPI's experience, penetration and access. We bring you the single greatest advantage you need to lock onto market share, and increase it. We actively build principals' and customers' loyalty, by focusing on their needs.

*Call us. We are ready to work for you.*

Gary Economo

**3D Plus**

[www.3d-plus.com](http://www.3d-plus.com)

**3D PLUS** is the leading company for the 3-D electronics packaging in Europe and is recognized as a high performance innovator in the design and manufacturing of miniaturized 3-D modules for Active, Passive, Opto-electronics and MEMS/MOEMS components.

**3Gmetalworx**

[www.3gmetalworx.com](http://www.3gmetalworx.com)

**3G METALWORX** is a specialized manufacturer of PCB-level RF/EMI shielding metalwork for electronic devices of all kinds.

**Bluegiga**

[www.bluegiga.com](http://www.bluegiga.com)

**BLUEGIA TECHNOLOGIES** extensive range of Bluetooth modules provides the highest level of integration enabling device manufacturers and OEMs to easily add wireless, secure and standard based connectivity into new or existing applications.

**Cincon**

[www.cincon.com](http://www.cincon.com)

**CINCON** is a leading designer and manufacturer of DC-DC converters and AC-DC power supplies. Cincon also manufactures chargers for cell phone, PDA and portable devices.

**EOS Power**

[www.eospower.com](http://www.eospower.com)

**EOS POWER INC.** designs, manufactures, markets, sells and supports the world smallest and most efficient AC/DC switching power supplies ranging in power output from 25 watts to 350 watts

**GrafTech Int'l Ltd**

[www.graftechaet.com](http://www.graftechaet.com)

**GRAFTECH** provides a wide range of graphite based electronic thermal management solutions for today's high power components, which require maximum heat transfer efficiency.

**NJR Corporation**

[www.njr.com](http://www.njr.com)

**NJR CORPORATION**, a subsidiary of New Japan Radio Co., Ltd., is the world's best source of high-quality bi-polar & C-MOS linear components.

**KaiSemi**

[www.kaisemi.com](http://www.kaisemi.com)

**KaiSemi** is a fabless semiconductor vendor specialized in FPGA-to-ASIC, ASIC-to-ASIC and DSP to ASIC conversions.  
**KaiSemi provides you a guaranteed ASIC drop-in replacement with no NRE payment, as fast as 8-18 weeks.**

**Micro Modular Technologies**

[www.micro-modular.com](http://www.micro-modular.com)

**Micro Modular Technologies** offer products for GPS and wireless communications applications, with an emphasis on the design and manufacture of complete, high-performance, small form-factor modules at the lowest cost,

**Orient Display**

[www.orientdisplay.com](http://www.orientdisplay.com)

**Orient Display** offers a broad line from standard LCD glass panels and LCD modules, from small lcd displays to large lcd displays. You can choose standard and extended temperature ranges with LED or without LED backlight.

**Power Sources Unlimited**

[www.psui.com](http://www.psui.com)

**PSUI** sells ac/dc power supplies, dc/dc converters, desktop, DIN rail power supplies, UPS, PoE/VOIP, Inverters, rackmount, telecom power supplies & other power conversion related products

**Taoglas**

[www.taoglas.com](http://www.taoglas.com)

**TAOGLAS** is the market leader for embedded GSM/CDMA/UMTS and GPS antennas. We provide off the shelf and custom high performance antenna solutions for any wireless device, worldwide.

**Telit Communications**

[www.telit.com](http://www.telit.com)

**TELIT COMMUNICATIONS PLC** is an Italy-based international provider of cutting-edge cellular m2m (machine-to-machine) technology, we offer a wide range of cellular modules in GSM/GPRS, UMTS/HSDPA, CDMA and the high level "Python" programming language. Telit recently purchased **One RF Technology** and now offers its customers a wide range of products - from wireless radio modems to OEM RF modules.

**VARTA Microbattery**

[www.varta-microbattery.com](http://www.varta-microbattery.com)

**VARTA** has over 115 years experience in engineering, manufacturing and sales of different rechargeable and primary battery systems. Particular focus is on supply of miniature battery technologies for mobile communication, medical and electronic equipment.

**Zierick Manufacturing**

[www.zierick.com](http://www.zierick.com)

**ZIERICK** has manufactured a full line of standard and custom engineered electronic receptacles, electrical hardware, and automated assembly equipment, since 1919.
